PROFILE

Highly motivated Junior Front-End Developer seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects. Aiming to take on new challenges and utilize my coding and debugging skills for developing new features and enhance the overall user experience.

EXPERIENCE

Azimut Vision - Web Development Course

08/2023 - 02/2024

I completed an intensive web development course that provided in depth training in HTML, CSS and JavaScript. Throughout the course, I acquired fundamental knowledge and practical skills in front-end web development, including:

- **HTML:** Learned to create structured and semantically correct web pages, incorporating elements such as headings, lists, forms, and multimedia.
- **CSS:** Gained proficiency in styling web content, including the use of CSS selectors, properties and responsive design principles. Developed skills in layout design, typography and color schemes.
- **JavaScript:** Acquired a strong foundation in JavaScript programming, focusing on interactive web development. I learned how to use JavaScript to enhance user experience, validate forms and create dynamic web content.

Key Achievements :

- ✓ Successfully completed all course assignments and projects, demonstrating the ability to apply HTML, CSS and JavaScript concepts to real-world scenarios.
- ✓ Developed a personal website as a final project, showcasing my skills in frontend development.
- ✓ Collaborated with fellow students on group projects, improving teamwork and problem-solving abilities.

Additional Experience :

- I have created a variety of personal projects, allowing me to gain practical experience in modern web development.
- I possess basic knowledge of React, enabling me to build dynamic and interactive web applications.
- I am proficient in using Git for version control, ensuring efficient collaboration and code management in my projects.
- I have basic backend experience with Firebase, which I have utilized for authentication, database management, and hosting purposes.
- I have experience working with APIs to fetch and display data dynamically within web applications, enhancing user experience by providing real-time updates and interactive content.
